FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

Wanted to Know the Cost of Repelling the Indian and Mexican Raids—Erection of Building.

HOUSE.

WASHINGTON, D C., January 23.—Mr. Upson, of Texas, introduced a bill authorizing the Secretary of the Treasury to ascertain and report the amount of money expended and the indebtedness assumed by the State of Texas in repelling the Indian and Mexican raids. Referred.

Mr. McKenzie, of Kentucky, from the committee on Public Buildings and Grounds, reported a bill authorizing the erection at Danville, Va., of a public building at a cost not exceeding sixty thousand dollars. Passed.

Mr. Horr, of Michigan, then made a humorous speech in reply to some pleasantries indulged in at his expense yesterday by Cox, of New York.

After the passage of some unimportant private bills and the presentation of several memorials, the House adjourned until Monday.

THE MAINE MUDDLE.

Thinking of Moving to Biddeford---Gov. Smith Anxious to Leave.

BOSTON, Jan. 23.—The *Herald's* Augusta special says the Fusionists are talking seriously of accepting the tendered hospitality of the Democratic city of Biddeford. The Fusionist Governor, Smith, is desirous of getting away from Augusta, where he says the Republican city administration will not protect the Union Hall Legislature and where the legislators are subject to insult daily.

AUGUSTA, Maine, Jan 23.—The Fusion Legislature met at Union Hall today, but only part of its members were present and nothing of importance was done. The Republican Legislature passed under a suspension of the rules a resolution so amending the constitution that the Governor shall hereafter be elected by a plural ty instead of a majority of the votes.

Printing Offices Burned.

ST. LOUIS, Jan. 23.—The *Post-Dispatch* newspaper office was damaged about $5,000 by the fire this morning. The paper appeared as usual this evening. The loss was covered by insurance.

The wholesale drug house of Robert B. Smith, of Alton, Illinois, was burned yesterdy with the Alton *Evening Telegraph* and Job Printing office of Beadle and Douders. Smith's loss about $110,000. Insurance $89,000. The printing only partly insured.

Liverpool Cotton Circular.

LIVERPOOL, Jan. 23.—This week's circular of the Liverpool Cotton Brokers' Association says, cotton has been in fair demand throughout the week, but the supplies were large and the quotations for same descriptions reduced American has been in good request, but with some pressure to sell declined 3-16 d. for good middling and ¼ d. for other grades. Sea Island was in large demand but the supply was plentiful. Futures opened quiet and have been generally dull throughout the week and finally show a decline of ½ to 3-16.

Cardinal McCloskey Again.

NEW YORK, Jan. 23.—A special from Rome to the *Herald* says: The Pope declares that there is no truth in the *Pall Mall Gazette's* report that his holiness was angry with Cardinal McCloskey on account of his reception of Mr. Parnell. His holiness expressed the highest opinion of Cardinal McCloskey, and takes no interest in Parnell—his demonstration being political and not religious.

A Railroad Disaster.

CHARLOTTESVILLE, Va., Jan. 23.—This morning a material train on the Virginia Midland Road at Rockfish station, eighteen miles south of Charlottesville ran off the track at the Bridge down an embankment of fifty feet, killing conductor Dabney Wilson and two brakeman and seriously wounding Captain H. D. Lucket and six road hands. Six cars were completely wrecked.

The German Sufferers.

PETERSBURG, Va., Jan. 23.—Liberal contributions of funds have just been made by the German citizens of this place for the sufferers in upper Silesia, Germany. The money collected has been forwarded to the German Consul in Richmond.

German newspapers state that Prince Bismarck has bought 50,000 seedlings of the American maple, which he proposes to plant in his forests in the Sachsenwald. The Prince has also ordered, for the same purpose, 10,000 seedlings of the Pinus cendra Manschuria, which is largely cultivated in Switzerland and the south of Austria.

The Chicago *Gazette* has nearly finished its political census of the Ohio Republicans. Its list shows a very strong support for Sherman. There are 570 Republicans in the "Buckeye State" supporting him, 220 supporting Blaine and only 128 for Grant.

Bees in the Mails.

The Post Office Department has heretofore excluded live bees from the mails, but the Bee Keepers' Association having recently made representations through Representative Willets, of Michigan, that this prohibition was not necessary for the security of the persons handling the mails, and was seriously injurious to a very important and growing industry, the department made a change in the rule on the subject. Under the new regulations "queen bees and their necessary attendants" will be admitted to the mails if sent in a box which conforms to the present regulations of the postal service, with "the additional security of a wire or perforated tin screen, made after the manner of the one recommended by the National Bee Keeper's Association."

The Farmer of Swift Creek.

Correspondence of the News.

SWIFT CREEK, Jan. 23.—I was thinking because it is Leap Year all of my calves have been born heifers. Well I, am glad of it.

Grain crops are looking well and many people are gettting their gardens in order, the number of onions planted in this section is remarkable and still the breath's of the people does not smell like those of the whisky stilling portion; not that your correspondent has any objection to a good drink of "moonshine." Our roads are repaired better than I have ever seen them, owing to the superintendance of Captain Goodwin and Ellis.

You can buy a nice phæton of Stronach & Belo and ride out here with less inconvenience under foot than on your city roads. It is very early for bees, though the sugar maples are full and with starp in their support you may be sure of a good supply of honey.

Our school-house meetings have to let Hons. Davis, Fowle and Holt all be governors, and attend to the simple business of sending General Cox to the place he can honor, and which, but for treachery, would have long ago been filled by him. I don't think that your correspondent, in allowing the gentlemen to be all Governors, has not appreciated the situation, but will explain at some other time.

I am sending you a black squirrel skin with his compliments. I think you can make an article of dress out of it.

Our fancy geese have been laying for a week, and we have several setters on duck eggs. Our different varieties of fancy pigeons have been hatching well.

The general health of our creek is good, and Colonel Polk's fish are up here, so they say, and doing well.

We were sorry to see, in the NEWS, the death of Colonel Whitaker. He was an estimable gentleman, and one of our warm personal friends.

Brilliant Proposition.

The proposition of one of the North Caro lina statesmen in Congress to send free to every voter in the country a daily copy of the *Congressional Record* is so excellent that we hope the trifling item of expense will not be interposed as an objection to the passage of the bill. In order to convince Congressmen how insignificant the expenditure really is, in view of the great advantages to be reaped by all our citizens from a daily perusal of the document in qu stion, we have been at the trouble of making a few rough calculations on the subject. The cost of printing and circulating the *Record* would be nearly as follows:

	Per Week.
Paper,	$ 600,000
Postage,	1,020,000
Pressmen,	25,000
Stereotyping,	25,000
Mailing,	25,000
Incidentals, gas, coal, etc.,	200,000
Total,	$1,895,000

In round numbers the amount would be about two million dollars a week, not including the cost of presses and other machinery, which would probably run up to six millions of dollars. A printing office covering at least one-fourth of the District of Columbia would have to be built, and in addition the Postoffices all over the Union should of necessity be enlarged. We sincerely hope Congress will not hesitate to give every voter a free *Record*, no matter what the expense may be. It would be cheap at any price.

Tattooed Royalty.

London Correspondence New York Herald.

There is another event social that has caused May-fair to totter on its base. An announcement has been made, no one knows whence, to the effect that the Prince of Wales's two sons, who are serving on board a man-of-war, have been tattooed on the nose with India ink. The society journals are hysterical on the subject. It appears that the symbol of a broad arrow has been artistically imprinted on either of the princely nostrils. The thought of bowing the knee to a tattooed king is altogether too much for Mrs. Grundy. The sacrilege wrought upon the countenances of the Lord's anointed has provoked a torrent of indignation. Vanity Fair comes forward to stem the tide. It learns on excellent authority, from a source which it believes to be peculiarly reliable—hinting, indeed, that it is officially charged to make the announcement—that the mark on the side of the nose is only an eighth of an inch long. This has so far allayed the excitement in clubland.

Cattle Quarantine with Canada.

Intimations have been received that the Government of the Dominion of Canada will relax its orders relative to the importation of cattle from the United States. The Treasury Department will shortly issue an order annulling its retaliatory measures on the same subject, Some time since Canada put in force such restrictions on the importation of cattle from this country as practically to amount to an embargo, and our Government promptly followed the example with reference to Canadian cattle. These are the orders which are to be revoked.

Prosperity in Mississippi.

The press of Mississippi, without exception, chronicle much prosperity throughout that State. The Vicksburg *Herald* says: "Mississippi appears to be emerging from the gloom of a long depression into the brightness of a permanent prosperity. All the productions are bountiful, prices are good, old scores are being wiped out, and all the people feel that there is 'life in the old land yet.' A planter showed his books to a newspaper correspondent, in which, out of seventy-five names of tenants, share-workers and hirelings, but one had failed to pay his bills and have money ahead, and the reason he gave for the exception was that he had dabbled in politics last summer and lost his crop through sheer neglect."

The Pope's newspaper, the *Aurora*, made its first appearance some days ago. It has a large number of editors on its staff, and, it is clear, will be a first class journal in every respect. The Pope himself will superintend its management, and perhaps write occasional editorials himself. In the first number the *Aurora* comes out in favor of "home rule" in Ireland.

By an amendment to the Maine Constitution, adopted almost unanimously by the people at the polls last September, the elections which have occurred each year ever since the admission of the State into the Union will hereafter take place biennially.

M. DE LESSEP'S CANAL.

PASSENGERS IN NEW YORK FROM PANAMA.

A Description of the Great Engineer and His Surroundings on the Isthmus.

New York World.

NEW YORK, Jan. 22.—The Pacific Mail steamship Colon, Captain S. P. Griffin, arrived early yesterday morning from Aspinwall, bringing dates from the isthmus up to January 11. The Colon was due here Monday morning, but met with very rough sea and unfavorable wind for the first seven days of the trip. Among her passengers were four of the Panama Railroad directors, Messrs. Trenor W. Park, John M. Burk, S. C. Thompson and George A. Hoyt, and also Colonel C. L. MacArthur, proprietor of the Troy *Budget*, and the Hon. Stephen Coleridge and wife, of England. Mr. Coleridge is a son of Lord Coleridge, and his wife is a neice of Sir Stafford Northcote Chancellor of the Exchequer.

Mr. Trenor W. Park returns home with entire confidence that M. de Lesseps will successfully carry out his canal scheme. Mr. Park says that he and his friends will await for sixty days a decision of M. de Lesseps in regard to his already expressed desire to accept the informal proposition of the Executive committee of the Panama Railroad Company regarding the sale of the road for $14,000,00, being double the face amount of its capital. While at Panama Mr. Park assured M. de Lesseps that he and his friends would wait until the latters visit to this city, and in the mean time would hold their informal agreement binding. Mr. Park and his friends claim to control the majority of the stock, but they have decided not to make any definite arrangement with M. de Lesseps unless the minority stockholders are given the same advantages that Mr. Park's party enjoy. The *World* has trustworthy information, however, that Mr. Park's plan is not altogether approved of by some large stockholders who are by no means anxious to sell their stock even for two hundred when it is bringing them one hundred and seventy to one hundred and eighty in the open market. These stockholders think that the road is worth at least $20,000,000.

Colonel MacArthur, of Troy, N. Y., does not think very highly of the Lesseps scheme. He believes there was much unnecessary demonstration on the part of the Frenchmen. Before Engineer Dirks reports it will be difficult to say positively whether the canal can be built or not. Engineer J. C. Campbell, who was also a passenger by the Colon, thinks that the isthmus has never yet been surveyed properly, and that even the work of the American officers there has been too incomplete. He does not think that any canal can be a success unless it is a sea-level one, and, although he does not wholly approve of M. De Lesseps's ways, he believes him to be a very shrewd man who knows his count.ymen well and is trying to please both Frenchmen and Columbians. Mr. Campbell is very outspoken against the position of Mr. Menocal in regard to the Panama Canal.

The *World's* correspondent gives the following account of his trip with De Lesseps:

"I procured an introduction to M. de Lesseps and was invited to ride over to Panama in his car. Only two passengers of the Colon crossed the isthmus then, and as I was curious to watch the first impressions of the country on these lively Frenchmen and the inebriety of the Panamenses over their arrival at their quaint old town, I was very glad at my good luck. M. de Lesseps brought with him Mme. de Lesseps and three out of seven of their children. Mme. de Lesseps is perhaps forty years younger than her husband. She was born at Mauritius and Mlle. Bragard was her maiden name. M. de Lesseps is a very hearty, charming gentleman of seventy-four, quick in his movements, vivacious in conversation, with a kind word and a smile to all. He is somewhat older and of smaller stature than the pictures one commonly sees of him. His face does not show that stern resolution I expected to find in it."

The crossing of the isthmus was of great interest to the Frenchmen. M. de Lesseps himself rode most of the way on the platform of his car on the rear of the small train. For half an hour that I was at his side there I could witness the deep interest which he took in his luxuriant nature, which was to him so entirely novel. In the settlements along the route there was great enthusiasm in the greetings of their simple people, half Indians, half Africans. It was remarked how few men were seen in comparison to women and children. Inside the car, however, there reigned more than tropical—simply torrid—enthusiasm. A yellow butterfly would cause a commotion in these excitable people. But you do not imagine what an event the first approach to the Chagres was. The car was a pandemonium. The train had to be stopped and the Chagres—the enemy—had to be inspected. There he was, now very low, running sluggishly. And yet five weeks before it was nothing less than forty feet above where it now was.

Among the many remarks that M. de Lesseps made during this ride, which he told me may some day be considered an historical one, he said that he found Colon or Aspinwall much more advanced than he expected, and the same could be said of the settlements along the road. "In Suez we had to build everything; here you have already one railroad like this, which is worth its price just for the building of the canal itself, and two already established towns at each end. All this is an immense gain in our favor as compared with Suez."

The reception of M. de Lesseps at this town was something never to be forgotten. It seems that every one of the 14,000 inhabitants was at the railway station, shouting, struggling to get a glimpse of this distinguished guest. I doubt very much whether more than one-twentieth of them knew of the true importance and meaning of the occasion. But the announcement of four days of festivities, and such festivities as horse-race, illumination, fire-works, parade and bull-fight (without the fight, however,) was a little too much for this indolent people. Their enthusiasm did not know any bounds. We may as well laugh all we want at their ways of expressing it, but it was a most genuine triumphal entry, this one of M. de Lesseps.

After much cheering and amid the greatest turmoil I ever saw, the Frenchman and his party were allowed to take carriages to the Grand Hotel. At 8 o'clock a state but informal dinner was served. There were many toasts. Lesseps said he was deligated to come to a country without custom-houses and where even a bishop speaks of liberty.

Later in the evening there was an illumination in the Cathedral Square where is the Grand Hotel. During the whole night there were several serenades, and nobody could sleep for the noise. Many had to go without rooms in the evening. I was fortunately installed between the apartments of the distinguished guests and that of Lieutenant Bonaparte-Wyse—in the very heart of the Lesseps camp.

The suite of M. de Lesseps consists of sixteen persons besides himself. Of these perhaps four were already in the isthmus for a month back, and of the remaining twelve three are not engineers. And here I must say that M. de Lesseps was astonished at the enterprise of the American press. He had hardly landed in the small town of Aspinwall when he was approached by the New York press representatives. His first visit to Panama was witnessed by the correspondent of the *World*, while in Europe the press hardly noticed his departure.

The festivities of his reception were continued three days and were of a most brilliant character.

STATE NEWS.

WARREN.

WARRENTON, Jan. 22.—The crops in this county for the past year have not been very good, though the rise in prices upon the year before has and will doubtless suppress complaint.

Mr. William Terrell, assistant railroad agent and telegraph operator at Warrenton Depot, and Miss Annie Harriss, daughter of Mrs. Mary Harriss, mantuamaker, in this place, were married on yesterday. They left on the northern train for a tour North.

The business it. the town during the Christmas holidays and since, has been pretty fair.

The tramp law has had a beneficial effect in this section. A tramp is scarcely ever seen, unless an occasional umbrella-mender may be denominated a tramp.

A revival meeting in the Baptist church here, is going on conducted by Rev. J. A. Munday, of this place, and Rev. Mr. Hatcher, who is connected with the *Biblical Recorder*. The manner in which this meeting is conducted must be productive of good results—there is an absence of all excitement. Scriptual truths are presented forcibly and earnestly and time is given to the calm and deliberate mind to consider and reflect upon the serious step of changing man's whole course of life. Excitement in these meetings, so common in times past and gone, seems to pass away before the onward march of civilization and enlightenments so eminently characteristic of the age. People begin to think that religion is not confined to impulse and feeling, but that it requires the exercise of the judgment and the reason.

Camp meetings so much in vogue thirty years ago have passed away, certainly in this part of the world.

The Inferior Court has been reorganized in this county, the magistrates having come to the conclusion that expense to the county was saved by it.

HALIFAX.

WELDON, Jan. 23.—The Roanoke Light Infantry went down to Suffolk yesterday to present to the "Suffolk Greys" the prize flag won by the latter company at the Fair of the Roanoke and Tar River Agricultural Society last Fall. The men of the Weldon company say they had a "splendid" time. There were present three companies from Norfolk and one from Portsmouth, making in all six companies in line. The presentation address was made by W. W. Hall, of Weldon, and the reception by Mr. Withers, of Norfolk—both making very handsome addresses. A bountiful and excellent dinner was given the visiting military. Altogether, it was a very pleasant and interesting occasion. C.

The South as a Competitor of England.

Recently an address was delivered to Blackburn, England, before an audience of two or three hundred mill managers, overlookers, and their friends interested in the cotton industry.

The subject under discussion was the chances of England and the matter of foreign competition. After speaking of the natural advantages of the United States for producing cotton and feeding operatives, the lecturer called attention to a fact of importance which is lost sight of by those who consider the power of America to enter into competition with England. "They look simply to the Northern mills, but there is a cotton industry growing up in the Southern States. It is only equal at present to one-tenth of the entire United States cotton industry; but the manufacturers claims to have Southern advantage over Northern manufacturers. They have an abundant supply of water, which is available all the year round, instead of being subject to interruption in the winter owing to frost. They have cotton close to their doors; they have a more favorable climate, and they have equally good ports of shipment, and they can compete with their rivals. If, then, the Northern mills are already entering into competition with us, and the Southern manufacturers can compete successfully with the Northern manufacturers, what is the prospect for us? The position likely to be assumed by the Southern States is a matter of infinite importance to us."

A Suit Abandoned.

The woman claiming to be the widow of Joseph L. Lewis, the deceased Hoboken (N. J.) millionaire, who left most of his fortune to the United States government to be used in liquidating the national debt, has withdrawn from her contest of the will. It is rumored the withdrawal was caused by the desertion of her lawyers, after the introduction of testimony which placed her in an unenviable attitude.

Where Contentment is Impossible.

Contentment produces, in some measure, all those effects which the alchemist usually ascribes to what he calls the philosopher's stone, and if it does not bring riches it does the same thing by banishing the desire for them. But the inducements for a fortune at the cost of only two dollars is sufficient to cause any one to read carefully the announcement made by the Louisiana State Lottery Company of the next monthly drawing (the 117th) at New Orleans, February 10th. For further information apply to M. A. Dauphin, New Orleans, La., or same person at No. 319 Broadway, New York City, N. Y.

While Parnell was going through the shoe shops at Lynn, Mass., the other day, a pair of shoes were made for him, by a Mayor of the city, once a shoemaker himself, finishing them.

John, my dear, said she tenderly, if you do not buy a bottle of Dr. Bull's Cough Syrup immediately, I will go home to my mother. I can't stand this coughing any longer. He bought a bottle.

How Great Men Die.

Since the death of Speaker Kerr and Senator Morton, of Bright's Disease, it has been noticed and noted that a large number of our public men and leading business men die too early from the same or a similar cause. By using Warner's Safe Kidney and Liver Cure, their diseases might be cured, and their valuable lives prolonged. The time is coming when, because of this remedy, no one will die of such diseases as Bright's and Diabetes.

THE ANTI-TILDENITES

HOLD A MEETING AT ALBANY, NEW YORK.

Horatio Seymour their Candidate---Separate State Convention---Two Delegations National Covention.

N. Y. Sun.

ALBANY, Jan. 21.—The conference of the anti-Tilden Democrats was held this evening in the parlor in the Delaven House, where Dean Richmond and the late John Morrissoy entertained their friends. It was ostensibly a public meeting, but its work had been arranged by correspondence and at a private gathering that was held in the afternoon in the office of the Chairman of the Kelly Democratic Committee. Nearly one hundred invitations were sent by Mr. Moak, Chairman, to gentlemen in all parts of the State. Not quite half of the number invited were present.

When Mr. Moak organized the meeting there were in the parlor from New York: John Kelly, David Dudley Field, John B. Haskins, and a number of other prominent Democrats.

At Mr. Field's suggestion a committee of nine were appointed to draw up resolutions expressive of the sentiment of the conference, when Messrs. Field, Waldo, Barry, Arnot, Calicott, Strahan, Potter, Colby, and McDougall were appointed. They retired, and were gone a very long time. Once they sent for John Kelly, who was closeted with them a few minutes. At length Mr. Field returned at the head of his committee, and read the following resolutions:

Resolved, That as shown by the last election, the Democratic party, if united, will be in a majority in this State.

Resolved, That the Democratic party in the State can only become united by avoiding the causes which led to the division in the last election.

Resolved, That we affirm the undoubted right of Democrats to reject a nomination, made by a party Convention, of a candidate who is offensive to a considerable body of the party; but we see nothing in the past of present circumstances of the party in this State to prevent its uniting upon a candidate fairly nominated who is accepable to all sections of the party.

Resolved, That under the circumstances it is necessary that a convention of the Democracy of the State should be convened to appoint de egates to the next national convention of the Democratic party, and the Executive Committee of the State Committee is directed to call such convention.

No one spoke to the resolutions. They were adopted without a word for or against, and the conference was over. But while the formal gathering was so very formal, many of the gentlemen present did not hesitate to say frankly what the object of the conference was. Its primary and in fact its only motive is the prevention of Mr. Tilden's nomination. Mr. Kelly, Mr. Haskin, Mr. Moak, and Mr. Green and others said so. Mr. Field was not so blunt. He said that the resolutions told the story and a child at politics might see what they meant. At the preliminary gathering it was learned by informal talk that the feeling of the Kelly Democrats is no less bitter towards certain men than it was last fall. Mr. Kelly was assured that he might rely upon the Democrats who had supported him in the late canvass in any measure he might deem best to take to prevent Mr. Tilden's nomination. It was also the opinion of the gentlemen present that the friends of Mr. Tilden would have control of the next State Convention. The only course left to pursue was to call a convention to select delegates to the Democratic National Convention. Assurances were given that such a State Convention would be composed of a large and enthusiastic body; one strong enough to impress Democrats of other States with the vigor and determination of the anti-Tilden Democracy in New York. The gentlemen present to-day, however, are careful not to say what length they will go to prevent that nomination, but the impression to-night seems to be that they will resist the nomination by every means in their power, and formally bolt it if made. There is another matter that these gentlemen made no hesitancy of confessing. They are for Horatio Seymour. Mr. Kelly did not say so categorically when I asked him, but Mr. Haskin and others did. Mr. Haskin said: "This is the beginning of an organized movement to secure the nomination of Horatio Seymour by the Democratic party as the only man we can elect—the *sine qua non*, so to speak. We have no doubt about Mr. Seymour's acceptance should the nomination come to him as we wish it to."

The Republicans here have taken intense interest in this conference. It has shadowed everything else here for two days. They thronged the lobbies of the hotel this evening and were eager to hear what the result of the conference had been. It was noticeable that no member of the Legislature took part in the meeting. Some of them felt that they had been slighted, but Assemblyman Walsh laughingly said: "It's only for the sachems, and not for the cheap braves like myself and other Tammany men in the Assembly." But the members of the Legislature were purposely kept outside. The notion was to have a small representative gathering of men who should make public the result of the political movements of the anti-Tilden Democracy. As the main purpose of this faction will be to influence the National Convention, and to convey an impression that they are strong and determined, it is believed that they will lose no opportunity to make public their plans. It was for this reason that the conference was open to-night, although the Republicans suggested that for an open conference most of the work seemed to have been done behind the doors of a committee room.

A Minister Kissing the Cook.

The New York *Tribune* states that the Rev. Gustave Haferman, pastor of the German Lutheran Church, one of the largest and wealthiest in Brooklyn, is in trouble, and has been asked to resign by the trustees of the church, the charge being that on several occasions he kissed his cook, a young girl named Ida Siggman. After submitting to the kissing for a while the girl reported the matter to her mother and then to the pastor's wife. Finally the matter reached the ears of the trustees of the church, who cited Hafermann to appear before them, but he only sent a long letter, acknowledging that he had kissed the cook upon several occasions. He declared that he did it out of pure Christian motives; he regarded her as a daughter This was not satisfactory to the trustees, in view of the fact that Haferman had two daughters already, and hence a request for his resignation. Hafermann is quoted as saying that if the congregation wished him to go away he would do so.

Mlle. Aimee's Suit.

From a Paris Letter.

Mlle. Aimee the French opera singer, who has made a fortune of several hundred thousand dollars in the United States, had no sooner reached Paris than she was summoned to appear in court to see why she should not pay damages for the misconduct of her representatives. It appears that Mlle. Aimee, or, as she is legally known, Madame Trouchou, leased a house at Nogent, near Paris, for three years. During her absence she left it in charge of a couple who indulged in matrimonial jars to such an extent that the neighborhood was scandalized. The husband finally drowned himself and peace reigned. When the lease expired it was ascertained that Mlle. Aimee had been accustomed to send from America monkeys, birds, etc., so that the best rooms of the house were either changed into an aviary or menagerie. Damages are estimated at several hundred dollars, which Madame Trouchou, alias Aimee, is asked to pay.

ANOTHER VIRGINIA CAVE.

A New Subterranean Discovery near Newmarket.

A correspondent writes from Newmarket, Va., the following description of a newly discovered cavern in that neighborhood:

About six miles southeast from Newmarket Station, in the foothills of the Massanutton range and on the land of Mr. Reuben, Zirkle, a farmer of independent means, indications of a cavern have been noticed for years. A few weeks ago Mr. Zirkle and one or two members of his family were strolling about the place, and, removing a few stones that they thought might cover an aperture, revealed a jagged opening descending almost perpendicularly. Having procured lights, they descended, and at the depth of thirty feet found themselves in a roomy chamber. Exploration has been vigorously prosecuted by Mr. Zirkle and his two sons, J. C. and A. E., and they have up to this date penetrated to the distance of nearly a mile in a direct line. The descent into the first chamber is now made easy by means of a wooden stairway. This apartment is about 100 feet in length, and its ceiling, which is 12 or 15 feet high, is studded with pure white stalactites of mammary or beet-shaped form. A side room, 15 feet wide and high, with a smoothly arched ceiling, extends from this for a considerable distance. Proceeding through a long passage varying from three to four feet in width and from five to seven in height, and crossing at right angles a long, low gallery, then going through a larger passage and making a sharp turn, the second hall is reached. This is 25 feet wide, 200 feet long, and from 25 to 50 feet high, with smooth walls.

Stepping then to a much lower level, a room is entered which is of a very irregular form and cumbered with enormous blocks of rock which have fallen from the roof. In the ceiling is a wide fissure extending upwards out of sight. On leaving this scene of chaos the course is to a level 50 feet higher through an intricate system of chambers, the largest 40 by 60 feet high. Descending from thence over a succession of shallow basins which in rainy seasons are filled with water you come first to a hall 100 feet in length, with a smooth vaulted ceiling, and from this pass into a grand chamber 500 feet long, 50 feet wide and 30 feet high, with a floor covered with angular masses of stone. An apartment following this is about 40 feet high, 300 feet long, and 40 feet wide, and this is succeeded by a room 100 by 50 feet and 15 feet high. From this a beautiful arched passage leads to a chamber 50 by 50 feet and 30 feet high, in which one of the wonders of the cave is to be seen. The floor is divided by an immense fissure which extends in a semi-circular form to the next apartment. A stairway has been constructed to the bottom of the fissure, fifty or sixty feet below, where is found a stream of pellucid water five or six feet in width.

The next chamber, called the "diamond room," because of the brilliancy of the incrustations on its walls, is 225 feet long, 50 feet wide and 40 or 50 feet high, with a level ceiling, and following this is a magnificent hall, 400 by 100 feet, and from 30 to 40 feet in height. At one end of this apartment is a pit 15 or 20 feet in length and depth. This is the farthest point to which a path has been opened and any one can comfortably go. With great difficulty a person can creep over a steep and slippery surface between that pit and one of the walls, and then by crowding himself through a small opening can reach another interesting feature of the cavern. This is a gallery formed in a perfect circle, 300 or 400 feet in circumference, with a floor as level as that of a ball room and a ceiling six or eight feet high, arched with the utmost accuracy. At a point nearly opposite the entrance are two weils, with perpendicular walls, leading to a lower level, and here exploration in this direction has stopped. From the bottom of the pit before mentioned, a narrow crevice leads to a series of low chambers one hundred feet below the gallery, which have not yet been investigated. The formations in this cave comprise all of those which are common to the other caves of Virginia. The resemblances to statuary are numerous. In one of the chambers is a stalactite, brown in color, with a figure in pure white of the exact form of a mouse upon it. The characteristic feature is the presence of a vast quantity of fine, perfectly limpid crystals, covering large sections of the walls and floor.

Woollcott's.

Mr. William Woollcott, of Woollcott's widely known, "Open Front," appears in a new advertisement in the NEWS this morning. We have had occasion more than once to notice Mr. Woolcott's enterprise. He is one of the most energetic and progressive of our business men and his efforts have been favored with success. His progress has been remarkable. Starting in a very small way in this city about five years ago, his business career has been marked by a steady and rapid increase until he now occupies one of the most important positions in the business arena of this community. His double front establishment fronting on Wilmington and Hargett Streets is filled from cellar to garret with a well selected stock of dry goods, notions, boots, shoes, caps, hats, etc., and is the best evidence of his success as a merchant.

His facilities for buying are unusually good and as a natural result his selling prices equally as good. He transacts an extensive wholesale business and has a department up stairs devoted especially to this branch, while the ground floors are exclusively retail. Mr. Woollcott has made his reputation by fair dealing and low prices and success has been the outcome.

Indigestible Bread.

The reason why adulterated baking powders make bread and biscuits very indigestible, is because they harden the gluten of the wheat and render it less soluble. The purity and perfect combination of Dr. Price's Cream Baking Powder makes all articles easy of digestion.

Good Living.

The secret of good living is of vast importance to all mankind. Every good liver knows this—but when the liver is bad, then take Rosadalis, the the great Southern Remedy, and Mott's Liver Pills. They are sure to restore you to health.

A PEEP AT ETERNITY.

THE POWER OF A BORDENTOWN EXHORTER.

A Godly Colored Lass of Sixteen Summers Journeys Through Both Heaven and Hell.

Philadelphia Record, 22d.

A religious revival among the colored people of Bordentown, of some weeks' duration, has been so violent in its tendencies of late as to cause a general agitation in that once peaceful place. The colored population have gone absolutely crazy over a girl sixteen years of age, who was so completely overcome with religious emotion that she fell into a stupor from which she did not show signs of recovering for more than two days. Now, having recovered, she sincerely believes that she passed within the gates of both Heaven and hell, was introduced to the rejoicings of one and the curses of the other, and then returned to the flesh, that she might furnish the solution of humanity's great problem.

The transition was effected in the African M. E. Church, wherefrom the cries of the sinners have been disturbing rustic sleep this many a night. Levi Johnson, the exhorter, was in his best form about 10 o'clock last Thursday evening, when Abby McCloe, with a shout of joy, leaped twice toward heaven and then fell to the aisle insensible. She was gathered up and carried, like one dead, to the altar, and subsequently to her home, a block or two away. The supposition was that she was injured by her fall in the church. Physicians attended, and finding she had sustained no bodily harm, declared that she had gone away in a trance, and pronounced her beyond their ministration. The humble household was filled with awe. Colored clergymen flocked to witness this spiritual phenomenon.

"They sang and prayed for hours" said one of the family yesterday, "but it didn't seem to do any good. De Lord was taken his own time. There was a doctor here who thought she had a fever, but when he felt her pulse and found it all right, he supposed she'd went in a trance too. About noon on Saturday she showed signs of life for the first time. Saturday night she drank a glass of water, but eat nothing until Monday, and all she had that day was an egg and a piece of pie. Last night she made motions that she wanted to go to church, and we carried her there in a chair. That seemed to do her some good, for this morning she talked like herself for the first time, and said she had been to both Heaven and torment. She came down stairs to-day, but had to crawl down, because her feet are so sore she can't walk."

"What is the cause of her sore feet?" inquired the *Record* reporter, to whom this statement was addressed.

"Walkin' through torment," was the reply. "It was so hot she burnt the bottoms of her feet."

By request the reporter was shown up to a small bed-room on the second floor, where the late tourist, an attractive mulatto girl, was sitting in a comfortable rocking chair with her scorched (?) and shoeless feet resting on a stool.

When asked her experience while in the transitory state she told this story in all sincerity:

"Well, I went through Heaven first. There I saw mother, my two sisters and my brother. I walked by them out couldn't get in the path they were in. They took me in a room where there were many lights; some were just lit, some part burnt and others almost out. They took me in another room where there was all little angels sitting around. Then I went to another place—up steps like. There sat a larger man writing with blood and there was another one on his knees praying, 'Father spare me a few days longer. He had long whiskers and spoke cross and gruff. After I left there everybody seemed to be shouting and rejoicing. I said: 'Oh, mother, how I would like to stay!' but she said: 'No, you must go back and tell them how things are here, and prepare.'"

Here the girl showed signs of her exhaustion from long fasting, and after a short rest continued:

"Then I started to another place. It seemed like a man who led me. It was awful hot, and there was a blazing up and a smoking as if something was boiling. People were screeching for water; such screaming I never heard in my life. Little demons were running around with dippers pouring something that looked like hot lead down their throats; and there was a big black man locked to the floor writing in a book. They had men shoveling hot coals and ashes back on the people as they rolled off. That's where my feet were burnt. I did not stay there long, for angels that were around me all the time soon carried me back to earth."

There must be something supernatural in Bordentown exhortation when it can work such a wonder as this.

Supreme Court.

Court opened yesterday morning at 10 o'clock; all the Justices were present.

The consideration of appeals from the Second Judicial District was resumed, and causes were disposed of as follows:

J W Grant, Admr., vs W A Reese, Admr., et al, from Northampton; argued by R B Peebles for the plaintiff, and Gilliam & Gatling for the defendants.

John T Gregory, Ex'r, vs B F Ellis, et als, from Halifax; argued by Mullen & Moore for the plaintiff, and T N Hill and T S Kenan for the defendants.

State vs Wm Yearby, from Wake; argued by Attorney General Kenan for the State; no counsel for the defendant.

State vs Charles Johnson, from Wake; argued by Attorney General Kenan for the State, and R C Badger and Biedsoe & Biedsoe for the defendant.

State vs Robt Outerbridge, from Bertie; argued by Attorney General Kenan for the State, and Oct Coke and Gilliam & Gatling for the defendant.

J H Hardy et als vs Augustus Holley, from Bertie; continued, on motion, to next term.

H J Smith vs J J Lynn, et als, from Wake; argued by G V Strong and S G Ryan for the plaintiff, and Battle & Mordecai and J B & W P Batchelor for the defendants.

J W Grant, Admr., vs W A Reese et als, from Northampton; argued by R B Peebles for the plaintiff, and Gilliam & Gatling for the defendants.

Court adjourned until 10 o'clock this (Saturday) morning.

The following is a list of appeals from the Second District remaining to be heard, and will be called in regular order to-day, viz:

76—Manix vs Howard.
86—State vs Jackson, et als.
87—State vs Williams & Taylor.
89—State vs Crockett.
93—State vs Bass et als.

DAILY NEWS

SATURDAY, JANUARY 24, 1880.

GEO. C. JORDAN, Editor and Prop'r.

RATHER than have no row the Brooklyn Presbytery have determined to saw the church in half.

THE cell of Pietro Balbo, the Italian murderer, at the Tombs, is full of gifts, mostly from women. Brass candlesticks, scapulas of silk and flannel, tiny books, mottoes, chromos, Christmas, cards and toys cover his table.

THE colored citizens of San Francisco have left the Republican party for good. They held a meeting in San Francisco the other day, and unanimously resolved that the negroes were but the tools to boast the white Republicans into power, and never secured any of the offices themselves. They are now looking around for another party that will take care of them, and give them some of the fat places.

THE Edison excitement in Europe has collapsed. Gas shares are recovering. It is held that Edison is ignorant of previous discoveries in electricity and is too ready to claim success while his work is still in an experimental stage. It is evident that he will now be abused as heartily as he has hitherto been extolled. Perhaps, however, it will be a good idea for all who have no interest in gas stock to exercise a little patience and wait for future developments.

A CURIOUS picture is that given of the Turkish army in Albania. It has received no pay for three years, and is consequently short of funds. As the government, moreover, does not furnish the men with supplies, they have actually been in danger of starvation. To prevent this, the men have sold their arms, ammunition and uniforms, and are now traveling around the country in squads begging for a living. An army of this kind, without rifles, powder or organization, cannot be of much aid to the country they serve or of much danger to its enemies.

THE nearest election at hand is that of Indiana, which occurs in April. The "Hoosier State" elects no officers then, but votes on seven constitutional amendments, one of which changes the time for the general State election from October to November. This amendment, which is the only one of any importance, will be beaten, it is said. The Indianians recognize the fact that two elections within a month of each other are injurious to their agricultural interests; but they know at the same time that this October election always brings a round sum of campaign money into the State and they do not propose to lose this.

VERY important mining discoveries have been made in Maine during the last few months, of which the public would doubtless have heard more but for the political muddle which has entirely monopolized outside interest in Maine affairs. Companies have been organized and work is being energetically prosecuted in various parts of the State. The deposits are principally of gold and silver. The Acton lode, in York county, is reported by Professor Stewart to be one of the best defined fissure veins on the continent. It has been traced for two miles from North to South in nearly a right line, and the surface exposures show that it ranges in lateral diameter from eight to twenty feet. The Riverside Mining Company has been organized at Camden, in Knox county, with a capital of $500,000. Work was begun about six weeks ago, and is being pushed night and day. The shaft of the Fort Knox mine, at Prospect, opposite Bucksport, on the Penobscot River, is now down sixty-two feet.

NEW YORK has published her marriage statistics, and they show some of the eccentricities of matrimony. The total number of marriages celebrated in that city in 1879 was 8,402. Of the brides and bridegrooms 16,399 were white and 405 colored, including three Chinese. A large majority of these were, of course, married for the first time, but there were 1,266 men and 944 women who celebrated their second marriage, eighty-two men and twenty-five women married for a third time, and one man and three women who embarked on their fourth matrimonial venture. It will be seen despite the sneers of novelists, that the widows are not as dangerous as the widowers, and do not as often take another spouse. In the matter of age, also, the showing is much the same. Fifteen men married over seventy, but not a single woman. Over fifty of the marriages were—men 137, women fifty-two. Three-fourths of the women married were under the age of twenty-five, showing that the people of this country—the ladies, at least—have a decided partiality for early marriage.

THE "brethren of the mystic tie" throughout the world will be more or less delighted, according to their devotion to their order, to learn that Lieutenant Commander Gorringe, of the United States navy, now at Alexandria, Egypt, superintending the removal of the monolith to this country, reports the discovery of masonic emblems in the foundation of the monolith. It is the favorite claim of the masonic order that it is descended from a remote antiquity, and reckons among its ancient members some of the princes and potentates of the orient centuries anterior to the days of Christ. Should the reported discoveries of Lieutenant Commander Gorringe be verified, these claims will appear to be established by new and important evidence. It is true it may be said by the enemies of masonry—for there are still some who are vigorous in their anti-masonic feelings—that modern masonry has simply adopted emblems and signs which were known to have been in use among the ancients, and that there is no identity among the secret brotherhood of this generation and the society or class which originated those symbols. But the brotherhood will have very fair arguments wherewith to meet this assault and convince a majority of those who take an interest in the matter of the genuineness of their claims.

An Improbable Report.

Baltimore Sun, Jan. 22d.

Vast as are the railroad combinations now being really effected in this country, they are surpassed by those being made on paper by sensational writers. In the latter category is doubtless to be placed the report published in the New York *Times* yesterday to the effect that Mr. J. N. McCulough, first vice-president of the Pennsylvania Railroad Company, Mr. H. Victor Newcomb, first vice-president of the Louisville and Nashville Railroad Company, have conference in New York on Tuesday, at which the proposition was made, discussed and favorably entertained of leasing to the Pennsylvania Railroad Company, for a long term of years, the Louisville and Nashville railroad, and all of its old and recently acquired dependencies. Whilst such a lease might possibly be desirable to the Pennsylvania Company, it is known that the Louisville and Nashville Company is a strong corporation, managed by astute and ambitious officials, who have unbounded faith in the complete success of their combinations, now embracing 3,500 miles of railroad, extending from the fresh water lakes on the north to the Gulf on the south, and from St. Louis to Savannah, Ga., where steamship communication with the Eastern cities and Europe is secured. A conference may very reasonably have taken place as to the business relations of the two roads, but the Louisville and Nashville is hardly ready to give itself over to any other company.

Mr. Seymour May Accept.

Washington Republican.

Horatio Seymour is evidently the coming man for the Democratic nomination as matters stand just now. But the charge is made that his candidacy is a "blind" for Tilden. The idea is to concentrate democratic thought, as usual upon the necessity of carrying New York and the possibility of doing it with Seymour on the ticket, and then, at the critical juncture, to have him decline, when Tilden will step in and smilingly take his place. But there is a danger to Tilden and all hands in this programme. In 1868 Mr. Seymour said to the New York convention: "Your candidate I cannot be." But he became its candidate, nevertheless.

You can't afford to laugh, dear girls,

Unless your mouth is pink and sweet,
And your two lips in rosebuds meet;
And you cannot supply this want,

The Remedy.

We print with pleasure, the following additional testimonial to the many already publish in reference to MRS. PERSON'S Celebrated Scrofula Remedy and Tonic Bitters.

Raleigh, N. C., Jan. 15th, 1880.

MRS. JOE PERSON:—*Franklin, N. C.:—Dear Madam:*—We have been selling your Scrofula Remedy for some time, and it has proved to be a *very efficient remedy* in the cure of diseases for which it is recommended, and gives *better satisfaction* than any other medicine that we sell for the cure of Scrofulous affections. We are of the opinion that if the Remedy was advertised and pushed like the most of proprietary preparations, the demand would be so great, that you would soon have to put up a large Labratory, and manufacture it on a large scale, to supply the demand. Wishing you a happy New Year, and abundant success in introducing your medicine, we are

Yours very respectfully,
PESCUD, LEE & CO.

The medicine can be obtained in Raleigh from Wm. Simpson, F. H. Heartt and Pescud, Lee & Co. Persons desiring to see testimonials of cures, can obtain circulars by application to them or Mrs. Person.

A Down-town Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists at 25 cents a bottle. *

All the freshest news, at home and abroad, excluding only that which is prurient or sensational, is given from day to day in its columns. In addition to what is furnished by the Associated Press and by the local reporters of The Sun, no expense is spared to keep its special correspondence, that from Europe as well as from the Pacific coast, and from its Washington Bureau abreast of the times, and to supplement it, as occasion may require, at every other point to which the current of events give prominence.

The Financial and Commercial Reports of The Sun contain at all times full and trustworthy accounts of all movements and operations in the leading markets, as well as that of Baltimore, with special telegraph service from New York of the latest stock and other transactions; while its reports of the ruling prices of breadstuffs, provisions, and other leading articles of trade and commerce, will embrace the latest intelligence, both at home and abroad, of each day's doings, up to the hour of going to press.

As a Paper for the People, filled with the freshest and most varied news, The Sun has acquired a reputation which is not surpassed by any of its contemporaries, while its large circulation, not only locally, but in many of the States of the Union, makes it the most valuable medium for all classes of advertisers.

VEST POCKET CURE
25 DYSPEPSIA 25
CLERGY & DOCTORS TESTE

Rev. Dr. Mangum, Prof. Univ. of N. C. Concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.) It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va.

Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va.

It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient without nausea.

Rev. R. F. Woodward, P. E., Va. Conf.

About twelve years I suffered from Dyspepsia. Failing in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.

I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any dish without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.

It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as observed in my practice, for all the complaints in familie from indigestion I use it and recommend it.

Editor Richmond Christian Advocate.

This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

ALFONSO'S SISTERS.

Some of the Leading Members of the Spanish Court.

The King of Spain has three sisters who live in the royal palace. The eldest of these ladies is the Princess Maria Isabella, of Asturias, Infanta of Spain, aged twenty-eight years, and for the last eight years the widow of the Count of Girgenti. She has been a second mother to Alfonso. Highly intellectual, well read, modest, she has aimed to no higher role than that of being the consoling and protecting guardian angel of her brother. Her only ambition is his happiness. Her face is singularly sweet and serene. The second sister is the Infanta Maria de la Paz, who is seventeen years old, tall and slender, pretty and graceful, and an excellent musician. The third is the Infanta Maria Eulalia. She is fifteen years of age, and still more blonde and slender than her sister Maria. She has lovely eyes, and she is a wonderful linguist. Among the men of the court the most prominent are Count Morphy, the Duke of Sesto and the Count of Onate. Count Morphy is a perfect type of the Castillian gentlemen—learned, good-natured and devoted to his King, to whom he was formerly tutor and is now secretary. He exercises a most wholesome influence upon Alfonso. He keeps aloof from the contentions of politics, his one passion being art, which he patronizes in true Mæcenas fashion. The Duke of Sesto, who married the Duchess of Morny, is the head of the King's household. His political career has been very short. It ended with the coronation of Alfonso, which was largely his work. He is a great friend of Frascuelo, the bull-fighter, a fact which does not argue well for his taste. Count Onate is a venerable old man. He was one of the most loyal servants of Isabella, and he now serves her son with equal fidelity. He is the type of those faithful men upon whom "El Rey" can always depend.

Prejudice.

The prejudice of many in favor of the old methods of treatment is vanishing before the accumulated evidence in favor of Warner's Safe Kidney and Liver Cure.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

MESSRS WEEKS & POTTER: Gualemen—I cannot refrain from ad ing my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

MESSRS. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.
NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

MEDICINAL AND TOILET,

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

The CUTICURA REMEDIES are prepared by WEEKS & POTTER, Chemists and Druggists, 360 Washington street, Boston, and are for sale by all Druggists. Price of CUTICURA, small boxes, 50 cents; large boxes, $1. RESOLVENT, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulderblade, Fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lewis, Felton, Ark., says:
"After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says:
"I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

FOR SALE.

I offer for sale my farm, two miles from Raleigh, on the Tarboro road, containing 120 acres. It is in a high state of cultivation. I will take one part cash; the balance on one, two and three years, 6 per cent. on the deferred payments.

Also the place on which I now live, corner of Wilmington and Davie streets, containing about ½ acre. It is one of the most valuable lots in Raleigh, right in the heart of the cotton trade. Terms easy. Same as above.

If not sold by the 15th of Jan'y I will rent both plantation and residence for the remainder of the year.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

A. F. PAGE,
jan 2-tf Cary, N. C.

GOOD FARMING LANDS FOR SALE

Having changed my mind about farming to saw milling, I now offer my lands in Apex township, Wake county, for sale. Five hundred acres good farming land, an around the thriving town of Apex, for sale on reasonable terms. These lands are divided into four separate tracts, ranging from 38 to 112 acres each. About 127 acres cleared and in fine farming condition, about all fresh and well adapted to the growth of cotton, wheat, corn, oats, tobacco and field crops generally.

Apex is situated on the R. & A. A. L. R. R. 15 miles from Raleigh, in a healthy and moral community, good schools, churches, &c., in the town.

G. W. ATKINSON.

I also have one three acre lot in the city of Raleigh with dwelling house and some other improvements, for sale.

Valuable Personal Property For Sale.

On Monday, 26th January, 1880, at the Oil Mills in Wake county, near Rogers's Roads, nine miles from Raleigh, I will sell for cash the following articles of personal property.

Machinery complete for the manufacture of Cotton Seed Oil and Meal.

One Iron Cotton Screw and Press in perfect order.

One Cotton Gin, fifty twelve inch Saws.

One Pair Grist Mill Runners, Bins, &c., complete for Grist Mill.

One 6 foot Turbine Wheel.

One 4 " " "

One 3½ " " "

The oil machinery cost originally $5,000. Has with it a Hydraulic Press of 400 tons all of which I will probably sell for a few hundred dollars.

WOOLLCOTT.—Local notice.

LOCAL BRIEFS.

——Colonel T. M. Holt is in the city.

——The Treasury received $18,500 in old bonds yesterday.

——The rink continues to meet with liberal patronage on the part of the lovers of pleasure.

——Mr. A. G. Lee, the well known druggist and member of the firm of Pescud, Lee & Co., returned last night from a Northern business trip.

——Mr. Isaac Oettinger contemplates building a private residence on Martin street opposite the Baptist Grove and next to Mr. John Armstrong's.

——The *Evening Dispatch* will appear this evening. This paper is gotten out by several young printers in the city, and will no doubt meet with success.

——And still Tim Lee's corner is being improved. The culvert is being carried up Martin Street, and will thereby relieve the street of much water when the rain comes.

——Mr. C. B. Fairchild is fast improving Nash Square. With his newly completed green-houses, well filled with bedding plants of choicest varieties, he is now able to fill all orders that may be given him.

——Yesterday Colonel J. W. B. Watson, well known in Wake county, was in town. The Colonel is probably the oldest bachelor in the county, and still, after these many years, he does not despair of getting a wife; and as this is Leap Year he is not unwilling to be eloped with by some fair damsel. And so the world wags on.

——Mr. George T. Stronach, the model farmer of Swift Creek township, was in the city yesterday. With all his ingenuity he was unable to get off a practical joke on the worthy denizens of Raleigh, and consequently had to fall back on his children, buying silver napk n rings and telling them that they were plated (Mahler knew better than that), and chairs and "kickshaws," etc. George says he is overcrowded with business, and consequently he will have to be excused.

——Raleigh has fifty-two resident lawyers. The number is small it is true, but this is of advantage to the lawyers. If the number were greater the emoluments would necessarily be diminished. We are reliably informed that one of these lawyers will leave for the West in about three months from now. This will reduce the number to only fifty-one and give a better chance for some of the young attorneys to rise in their profession, as the departing lawyer claims that he has been unable to make "bread and meat" out of his profession.

Buffalo Bill.

This far-famed gentleman and his troupe gave an exhibition at Tucker Hall last evening that furnished full satisfaction to a large audience—one of the best that has ever turned out.

There has been some question as to the genuineness of the character in question, but there is no chance for cavil—he is the genuine "Buffalo Bill." He gets his title of "Honorable" from the fact that he was a member of the territorial legislature of Colorado. He has also held one or two terms of the shrievalty in that territory.

The play, as stated before, was well received, and is of a nature to draw a full house, being sensational in its details. The acting, on a small stage, was mediocre, but Darby McCune, *Esq.*, brought down the house repeatedly.

Departed this Life.

Thursday afternoon at 4 o'clock John Iredell, colored, who formerly belonged to the estate of Governor Iredell. This man had a history, too long to be repeated here; suffice it to say that he was universally respected. For several years past he had been in the employ of Pescud, Lee & Company and gave thorough satisfaction. About a year ago, afflicted with weak lungs, he contracted pneumonia, which finally developed into tubercular consumption, an I of which disease he died. He was about fifty-four years of age, and leaves a wife and six children.

The colored Masons and the colored firemen escorted his remains to the grave, and the *cortege* was enlarged by the presence of many friends.

And the expression of all who knew him is: "Well done, thou good and faithful servant. Mayst thou meet with thy reward."

Meeting of the Alumni Association of the University.

In yesterday's issue, owing to the lateness of the hour of the adjournment of the Alumni Association, we were able only to give a hurried account of the meeting. This morning we give a full report.

Hon. Paul C. Cameron, President of the Association, called the meeting to order, and in the absence of the regular Secretary, Mr. George T. Winston, Mr. E. B. Engelhard was requested to act. Mr. Cameron, on taking the chair, delivered an address true to his feelings, and full of good wishes for the prosperity of the University. He spoke of what had been done, and if the Alumni would pull together what grand results would be accomplished.

A committee of five, with the President as Chairman, was appointed to memorialize the next Legislature to confer on the Alumni the power to elect a certain number of the Trustees. It being the opinion of the meeting that the Alumni meetings and the commencements should be distinct, the regular Alumni orator was dispensed with. Hereafter the annual meetings will be held in Raleigh on the same day in January with the Trustees' meeting, and the address will then be delivered.

Mr. George T. Winston having resigned the office of Secretary, Colonel W. L. Saunders was elected Secretary and Treasurer by acclamation, and Mr. E. B. Engelhard, Assistant Secretary.

The Association unanimously elected Mrs. C. P. Spencer an honorary member.

There was much interest manifested in the meeting, and the attendance was very creditable.

A resolution was passed requesting all the Alumni to contribute one dollar for the purpose of having sketches of all the Alumni, since the formation of the University, prepared, and that the Secretary notify the Alumni not present of this resolution.

The following named gentlemen, under the resolution, paid one dollar: The President, Hon. Paul C. Cameron, Rev. M. M. Marshall, Messrs. K. P. Battle, W. H. Day, J. H. Saunders, R. H. Battle, Jr., F. N. Busbee, W. L. Saunders, J. A. Marsh, R. H. Lewis, T. W. Mason, W. S. Mason, R. B. Saunders, A. M. Lewis, John M. Manning, E. B. Engelhard,

The books of the Association will be at the office of the Secretary, Colonel W. L. Saunders, where the Alumni can enroll their names and contribute the amount called for by the resolution.

THE DEEM'S UNIVERSITY MEMORIAL.

The following letter was received by President K. P. Battle from the Rev. Charles F. Deems and explains itself:

CHURCH OF THE STRANGERS,
NEW YORK, Dec. 20, 1879.

To President Battle;

MY DEAR SIR,—Inclosed please find my check for $300. If you will accept the care of it, I wish it to be the beginning of a loan fund, the money to be lent to the students attending the University of North Carolina on their notes, bearing interest at the rate of 5 per cent. per annum, secured by names of men whose promise to pay you would take for a personal loan. I wish the sons of the members of the North Carolina Conference to have the preference. I was once a member of that body and many of my most cherished friendships have been with good men, some living, some dead, who were my co-laborers therein. After this class, let the money be lent to the sons of any other ministers of the gospel. If there be none of these who desire it, let it be lent at the discretion of the President of the University. I wish also to associate Professor Mangum with you, so long as both he and you are together in the faculty. The fund is to be transmitted to the care of your successors.

It is a small amount. The present demands on me prevent my giving more. It may grow larger if the Lord prospers me or incline others to increase it. It is my memorial to my first-born, Theodore D. Deems, who was born at Chapel Hill and fell at Gettysburg.

If your reply can reach me before the 31st December I shall receive it before leaving for the far East.

Good bye. The Lord bless you and the University.

With great respect,
I am, affectionately,
Your old preceptor,
CHARLES F. DEEMS.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.

GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D.,
Englewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

Distance Lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.

Do you suffer with neuralgia or headach? If so take Neuralgine and be relieved. Every bottle guaranteed to give satisfaction if taken according to directions. Hutchinson & Bros., Proprietors, 14 Whitehall street, Atlanta, Georgia. Sold by Pescud, Lee & Co., and William Simpson, Raleigh.

Act in the Living Present

Be not diverted from trying your luck by any idle reflections the sly world may make upon you, for their censures are not in your power, and consequently should read carefully the advertisement of the Louisiana State Lottery, to be drawn on February 10th, at New Orleans, La., when $2 may win for you $30,000. Address for any further information M. A. Dauphin, New Orleans, La., or same person at No. 319 Broadway, New York City, N. Y.

MACHINERY.

90 ENGINES in 90 DAYS,

Sold by the Celebrated, Reliable and Established House of TALBOTT & SONS.

This proves whether or not these

Great Southern Engines

AND BOILERS

give satisfaction.

We are now receiving orders from parties that have one and some have two of these celebrated Engines and Boilers; they will have no other at any price, and only ask that they may have another as good as those they have. Talbott & Sons are now furnishing the best Northern markets with their Engines and Boilers, and give the very best satisfaction when tested with the best made Northern Engines.

Look at the cost of repairs of this Engine and Boiler, after run by inexperienced men. I will name a few who have run them constantly under the severest test. One party has a 20 horse power Engine and Boiler—run for six years, has paid fifteen dollars for repairs; another a 25 horse power Engine and Boiler—run five years and paid five dollars; another a 15 horse power Engine and Boiler—run four years and paid three and a half dollars, caused by his own carelessness, and unless by unusual carelessness these Engines and Boilers never need repairing within from five, ten and sometimes fifteen years.

Those in want of

RELIABLE MACHINERY

would do well to correspond with me. I will give as LOW PRICE and REASONABLE TERMS as any Reliable Manufacturer.

THE NEW FRYER.

This useful invention meets a long-felt need for a more convenient method of removing Oysters, Potatoes, and other fried food, with greater quickness, and all at once, from the boiling fat in which they have been cooked, and allowing the fat to drain from them while they remain over the fire; thereby getting rid more certainly of the superfluous grease, the objection so often made of the unhealthiness of food cooked in the ordinary frying-pan is done away with.

By detaching the supporter, you have no omelettes and other things for which a drainer is not required, a deeper and better quality of frying-pan than has heretofore been made.
